Not included : Deductible (¥1,000,000) | Insurance (Under 26 years old) | FSW sports driving ticket | New tire (If you want) | Racing gear

To drive GT3 cars need some racing experiences and driving skills at racing speed. Drivers, who have no racing experience and circuit driving cannot give permission to drive the car.

This is the first rental service in Japan to drive and practice FIA-GT3 car at Fuji Speedway sports driving session. If you want to try other circuits in Japan, please feel free to contact us.

Our GT3 car is Mercedes-Benz SLS AMG GT3. The car is famous for having beautiful design and high performance. Because the car has long wheel base, it moves gently so it is easy to handle. Also the body is very strong and the 6.3L AMG engine has huge torque, the car is very quick and steady. Another remarkable point about this car is its very clever electronics device, ABS and TCS. From these devices, both professional and gentleman drivers can enjoy the race safely. In the summer race, you can use air conditioning system in the car, so you can drive comfortably. A special feature of our rental service is that we have special insurance for racing cars. The insurance covers crashing during driving and practicing, contacts with other cars, and breaking cars from driving mistakes.
